

**Brown & Brown of New York, Inc. Selects GG-One Software to Provide Value Added Option for Clients**

KENNETT SQUARE, Pa., June 2, 2010/PRNewswire/ - GG-One Software, Inc. today announced that Brown & Brown of New York, Inc.'s, Syracuse, New York office (doing business as "Brown & Brown Empire State") has selected the iFastrack Software for management of insurance certificates. Through the use of GG-One Software's iFastrack for the Web, Brown & Brown Empire State can offer a value-added service to their clients as part of a comprehensive insurance and risk management package.

Brown & Brown Empire State (previously The Young Agency) has more than 100 years of experience servicing business and personal insurance needs of a varied and growing clientele. Its parent company, Brown & Brown, Inc., continues to be the industry benchmark, consistently ranked within the top ten largest insurance brokers worldwide. Brown & Brown is a recognized leader, providing progressive products and services in the areas of Commercial and Personal Insurance, Employee Benefits and Risk Management to thousands of satisfied customers around the world. *"Our selection of iFastrack software for Certificate of Insurance tracking was made after careful evaluation of all the alternative products in the market today. It was not only the most cost effective choice to offer to clients but additionally provides us an immediate labor saving benefit to our own internal staff"* said Cynthia Goss, Vice President Commercial Operations.

*"Most companies use contractors on a regular basis , but many don't manage their ongoing insurance compliance "* said Phyllis Recca, CEO of GG-One Software. *"This creates a risk for both the company and the insurance agency. With iFastrack, insurance agencies can allow clients easy access to state of the art software for tracking their insurance certificates and contracts from offices anywhere in the world."*

Fastrack is a comprehensive software package for tracking insurance certificates and contracts over the Web, local area network or on a stand-alone desktop. With this user-friendly system, policy expirations, limit amounts and additional terms are tracked against custom insurance requirements. By selecting Fastrack, companies can reduce their risk from uninsured contractors who might expose them to huge lawsuits, future liabilities and additional premiums.

Founded in 1994, GG-One Software, Inc. is a leading provider of software to track contracts and insurance certificates. Their flagship Fastrack product has been used for over 15 years by public and private sector businesses throughout the United States and Canada and has become a critical component of a comprehensive risk management program. With iFastrack, companies can have access to state of the art software for tracking insurance certificates and contracts from offices anywhere in the world.
