

Web Server (Application) Requirements

Hardware	Recommended	Minimum
CPU	Quad CPU (or better)	Dual CPU
RAM	16+ GB	8 GB
Drive Space (Software)	500 MB	300 MB

Software	Recommended	Minimum
Operating System	Windows Server (2014 - 2019) x64	Windows 10 Pro x64
Web Services	IIS8 - IIS10	IIS7
Dot Net Framework	Framework 4.52 - 4.6	Framework 4.5x

* Emailing feature (if purchased) requires setting up std Microsoft SMTP protocols for emailing from your office

(Exchange not directly supported)

Database Requirements

Hardware	Recommended	Minimum
CPU	Quad CPU (or better)	Dual CPU
RAM	16+ GB	8 GB
Drive Space for Data	100+ GB (account for growth)	50 GB
	Initial Data 300 MB	200 MB
	Additional Data (per certificate, calculate 20 KB x expected certificate excluding attachments) count	calculate 13 KB x expected certificate count
	Attachment Data calculate avg top 100 attachment size, multiply x expected attachment count	calculate avg expected attachment size, multiply x expected attachment count

* Web Server and Database Server (SQL) can reside on same machine.

Software	Recommended	Minimum
Operating System	Windows Server (2014 - 2019) x64	Windows 10 Pro x64
SQL Server	SQL 2014 - 2019	*SQL Express 2014
Dot Net Framework	Framework 4.52 - 4.6	Framework 4.5x

* SQL Express database size in SQL Express CANNOT exceed 10 GB (Microsoft limitations)

Workstation Requirements

Software	Recommended	Minimum
CPU	Quad CPU	Dual CPU
RAM	8 GB	4 GB

Software	Recommended	Minimum
Operating System	Windows 10 Pro x64 or Win 11 Pro x64	Windows 10
Web Browser	Chrome, Edge	Chrome, Edge, Internet Explorer 11
Microsoft Word	MS Word 2013 - 365	MS Word 2007

* Microsoft Word is required for creating or editing letter templates

* JavaScript, aka ECMA Script and Cookies must be enabled
